Position Announcement

Water Resource Technician - Full Time Temporary (4 Month)

Application Deadline: February 22, 2019

Capitol Region Watershed District will be hiring a Full Time, Temporary Water Resource Technician in its Monitoring, Research and Maintenance Division to assist with the installation, operation and maintenance of monitoring equipment.

Work Term and Hours: Work hours are Monday through Friday, 7:30-4:00 with 40 hours per week required from May-August. Part time schedule flexibility is allowed for students to complete course work. Position designated for a currently enrolled student graduating in or after December 2018.

Compensation: \$15.00 per hour, depending on qualifications and experience. This position does not include benefits or paid time off. Limited, un-paid time off may be allowed with prior approval.

Application: Send cover letter, resume and transcript to Belinda Gardner at belinda@capitolregionwd.org no later than 4:00pm, February 22, 2019. **Applicant must indicate they are applying for Water Resource Technician in the cover letter.**

Position Description: The Water Resource Technician, Full Time, Temporary will assist with stormwater quality monitoring of the Capitol Region Watershed District. The individual responsibilities will include: assist with the installation, operation and maintenance of monitoring equipment. This will include stormwater discharges at key outlets to the Mississippi River and stormwater Best Management Practices. Accurately record and store all data collected from monitoring program. Assist with the monitoring, maintenance and inspections of the District stormwater Best Management Practices (BMPs). The majority of the technician's time will be spent outdoors participating in field monitoring and preparing and/or delivering samples to lab.

Prerequisites:

- Currently enrolled student pursuing a career in water resources or related field.
- Interested in water quality monitoring and fieldwork.
- Has completed coursework in water resources or related fields (e.g. limnology, hydrology, water chemistry, public health, ecology).
- Ability to work full-time for the total period of position availability.
- Experience using Excel and MS-Word software.
- Data Management and Analysis experience.
- Ability to communicate effectively and work independently.
- Must possess a valid driver's license.
- Requires frequent lifting of items weighing up to 60 pounds and walking in rough terrain.
- Job requires working in all weather conditions.

Our Mission is to protect, manage and improve the water resources of Capitol Region Watershed District.
